# PREFACE

The second supplement to *Africa South of the Sahara: Index to Periodical Literature* includes entries added to the African Section's card index for the period June 1972-December 1976. As in the main index and first supplement, material specifically on North Africa (i.e., Algeria, Egypt, Libya, Morocco, and Tunisia) has been excluded.

The principal sources of bibliographic data are the card services of the Fondation nationale des sciences politiques, Centre de documentation contemporaine (FNSP/CEC) and Institut African pour le developement economique et sociale, Abidjan (INADES). Because of the unfortunate demise of the Centre international de documentation économique et social africaine, CIDESA cards no longer constitute a major part of the file. Entries prepared by each of these organizations include the initials of the issuing body on the card. In addition to card services, major portions of the file are culled from the *International African Bibliography* published by the School of Oriental and African Studies, London, and the *Blizhnii i Srednii Vostok Afrika* published by the Akademia Nauk, U.S.S.R.

While the arrangement of material in the supplement is by area (region or country) and by subjects within areas, as in the main index and first supplement, additional subject headings have been added for the second supplement, and some of the earlier subject headings have been revised. The format of the entries remains unchanged, with most citations beginning with the author's name, followed by the title of the article, the title of the periodical in which the article appears, and the volume number, date, and page references. Since many periodical titles appear in abbreviated or variant form on the cards, a list of Titles of Periodicals (page vii) is included. The list indicates the various abbreviations and variant forms of titles together with the full citation to each publication that could be identified. Serials held by the Library of Congress are designated by call numbers for cataloged material or by the symbol DLC for uncataloged publications. Information about microform and electrostatic reproductions of periodicals in the Library's collections is available from the Library of Congress Photoduplication Service, Washington, D. C. 20540.

As in the first supplement, an alphabetical author index is included. The Literary Index, which appeared in the main index and first supplement has been deleted from the second supplement. It is hoped that this index will be published separately at a later date.

We wish to emphasize that this index, like the earlier compilation, is intended to provide the user with citations to the contents of journals not covered in the standard indexes to periodical literature. It should be used in conjunction with general guides to serials, such as the *Bulletin* of the Public Affairs Information Service (PAIS), *Readers' Guide to Periodical Literature*, *Social Sciences Index*, *Humanities Index*, *International Bibliographie der Zeitschriftenliteratur*, and the *United Nations' Current Bibliographic Information; Renseignements bibliographiques d'actualite*.

C.R. Réunion des séances de l'Académie des sciences d'outre-mer. Paris, 1. XXXII, n° 2, séance du 4 juin 1972, pp. 301-304.  
\* INFORMATION - L'indifférence à peu près totale que rencontre l'évolution du continent africain est le reflet d'une ignorance d'autant plus injustifiée que le sort des Africains est directement lié à l'avenir des pays développés.  
\* INFORMATION - The almost total indifference which meets the development of the African continent reflects an ignorance more especially unjustified, as the fate of the Africans is directly linked with the future of the developed countries.
